Landfill Gas Control Facilities

Course #285

This one-day course gas monitoring, collection and control in Landfill Gas Control Facilities. The emissions control equipment, such as flares and gas-to-energy systems, will be discussed, the rules and regulations reviewed, and inspection strategies presented.

March 22, 2005
8:30 am - 4:30 pm
Yuba County Government Center
915 8th St.
Marysville, CA 95901

Students will participate in a "mock inspection" at a local facility, using equipment and techniques discussed in the classroom. The field inspection and an exam are required to obtain a certificate of completion. **Safety glasses & Ear Protection are required.** Enrollment fee may apply.
